HOW DELAWARE ORTAINS REVENUE -A letter from Dover (Delaware) to the Philadel-phia Telegraph says: "The revenue of the State is chiefly derived from the per capita imposed upon all strangers who pass over the two railways of Delaware. This per capita is not charged to people buying tickets for any station within the limits of the State; but to tolks who are compelled to take in Belaware and its course on a long journey. New Jersey has been pretty soundly treated for sweating the foreigner; but Delaware, in a less degree, is her accomplice. Every time you buy a ticket from New York or Philadelphia to Baltimore or Washington, you pay the vast Commonwealth of Delaware one dime. The revenue thus received amounts to seven thousand dollars a month, the larger part of the revenue of Delaware. This way of paying your expenses by erecting a toll-gate for your neighbors, must commend itself to every ingenious and selfish mind. If we all adopt it, we shall all be even, and the bad business of going from home will be stopped. I have been fitty times to Washington, so that I must have paid the State of Delaware enough to whip at least four men. Thus do we assist justice, as we sail, as we

THE MORMON MISSIONARIES IN WALES .couragement which the emissaries of Brigham Young always find in the Welsh countries. especially in the Southern parts. The miners are allured by the promises held out to them of getting "land for the asking," high wages, and a comfortable home in the Salt Lake settlement, and they gladly abandon a life of toil for the fairer prospect which is pictured to them. The Mormon elders, however, seek chiefly for girls, and many a household in Wales loses its best female servants, once or twice a year, owing to the persuasion of Mormon preachers. These young women are generally told that polygamy forms no part of the Mormon religion or practice, and that its alleged existence is a mere wicked calumny of the "Gentiles." In Monmoutshire, the progress of the sect during the last few years has been amazing, but it is impossible to estimate it properly by statistics or returns, because the "converts" are taken out of the country as fast as they are won.

FREDERICK AND PENNSYLVANIA RAILEOAD. The Frederick and Pennsylvania Line Rail-road Company has been organized. We understand that there are conflicting preferences as to the best route North. Some fayor the extreme Eastern route by Littlestown; others prefer a route along the Monocacy to the neighborhood of Emmitsburg; and others prefer a more westerly route, striking the mountain. Both the latter schemes contemplate a junction with the old State Railroad, which would make a connection with Gettysburg. The chief argument in favor of the latter route over the first-named is that it will bring the roud that much nearer the great coal fields of the State, bituminous and anthracite. If the Southern Pennsylvania be pressed to completion, the whole Broad Top region would be opened to the trade of that portion of Pennsylvania and all connecting districts .- Gettysburg Star.

DECISION IN THE COLE CASE.-In the Cole Hiscock case, which was argued before Judge Hogeboom, in Hudson, last Saturday, on a motion to admit the prisoner to bail, the Judge yesterday rendered his decision denying the application, and the prisoner was remanded to the custody of the sheriff of Albany county. The Judge has written a lengthy and elaborate opinion on the case, which will be published. The decision will be looked for with interest, especially by the bar. Aside from the general interest felt in the case, there will te a desire to learn the legal grounds upon which the Judge has based his action. In these days, when bail is readily taken in almost all cases of crime, a refusal like this will excite general comment .- Albany Argus, August 15.

THE DEATH OF COLONEL JOHNSON .- The Lynchburg Virginian, August 15th, says: The circumstances attending the death of Prof. Johnson, late President of Randolph Macon College, are related as follows by a telegram from Terre Haute, Ind : "Col. Thomas C. Johnson was killed at Mattoon on Saturday morning, about 8 o'clock. He was in the sleeping ear, which is backed on a running switch and left behind at that place. Ascertaining that the train had started, he ran to the front end of the car and jump bly forgetting in the excitement of the moment that the car he was on was still in motion. As he jumped out he fell, and the car passed over him. The brakes broke his neck and otherwise mutilated him, causing injuries from which he died in about two hours."

W. C. Raymond, near Cedar Rapids, lowa, lost his voice for two weeks, in consequence of sun-stroke. Rev. Isaac S. Kalloch, late of Massachusetts, but more recently editor of the Ottawa (Kansas) Journal, announces himself as an as-

pirant for Congress. Among the prominent things to be awarded as a premium at the Cedar County Fair, Iowa, is a baby. The Chicago Tribune says that the cool

weather of the last few days has probably put a stop to the more virulent forms of the cattle By Dr. Clement A. Walker, of the Boston Lunatic Hospital, says that insanity is "rapid-ly increasing in the community"—that is in

THE CAMPAIGN .- Letters received at the Republican headquarters here show that the or ganization of the party for the present campaign will be much more thorough than ever before. The number of auxiliary organizations of different kinds is unprecedented, and with a large part of them correspondence has already been begun. It is expected that in a majority of the counties in the Northern States the name of every Republican voter will be registered upon the books of some organization, and that the estimates of the probable result will, therefore, be very close. The Congressional Committee have been sending out about twentyfive thousand documents per week, and from this time to the close of the canvass expect to average from fifty to one hundred thousand weekly. They have a new list ready, which will be furnished upon application.

COL, ALEXANDER BLISS, A. Q. M., U. S. A. has resigned his position in the army, and his resignation has been accepted by the President, to take effect from the 31st of March last. Col. Bliss is at present Secretary of the American Legation at Berlin, and resigns his position in the army, preferring to remain at Berlin with Mr. Bancroft, as Secretary of Legation. Col. Bliss, for some years, was Depot Quartermaster at Baltimore, Md., and prior to his departure from the country had charge of the Fourth Division of the Quartermaster General's Office. He is much esteemed by his brother army officers and a large circle of friends in this city and Baltimore.

MILITARY ORGANIZATIONS IN THIS DIS-TRICT.-General Canby has not yet received any order to disband militia organizations in this city. Last November when the President addressed a letter to General Grant, directing him to disband the colored militia companies the latter was referred for execution to General Emory, who carried it back in person to General Grant, and informed him that there was no authority for such a proceeding since martial law did not prevail here. With this, in substance, endorsed upon it the letter was returned to the President, who has since let the subject rest.

EVENING DRESSES .- Green and white are the most fashionable colors for evening dresses at present. Pale buff, French gray, and white for street and house. Skirts are still gored in front and at the sides, and are quite full in the back, being frequently looped up in paniers The wide Spanish flounce is more fashionable than three narrow ones. Cambric and grenadine are selected for neck-ties for gentlemen.

FASHIONABLE WEDDING. -St. Aloysius Church was the scene this morning of a fash. ionable wedding, the parties to which were Mrs. Sophy Poucton and Mr. Wilcox, of Phil adelphia. The ceremony was performed by the Rev. Father Jenkins, of Georgetown College, and quite a number of the elite of Wash. ington and Georgetown were present. The happy couple left on the 12 m. train for Boston.

WM, B. STORM, Esq , of this city, has been appointed Internal Revenue Guager at Chicago, Ill. Mr. Storm was nominated for Consal at Leeds, England, during the last session, but the Senate refused to confirm the nomina-

HOE. HENRY M. WATTS, our new Minister to Austria, accompanied by his wife, arrived here from Philadelphia last evening. He called upon the President last night. Mr. Watts will to-morrow probably receive als instructions.

THE WHITE HOUSE.—The regular meeting of the Cabinet was held to-day; all the members present except Secretary Welles, and the session was a long one. No visitors were admitted to see the President this morning. SECRETARY SCHOPPELD returned to the city

this morning from West Point, New York, where he has been for several days past on account of the death of his son, which occurred at that place on Sunday last. A TREASURY WARRANT for one hundred and

any thousand dollars, in favor of Gen. Michler. Superintendent of Public Buildings, for the improvement of streets and avenues, was paid at the Treasury yesterday. COMPETENT AUTHORITY decides that the

chignon or "waterfall" is decidedly bad for the hair, as the heat and pressure of the foreign substances of which it is composed are sure to produce baldness.

GES. RAWLINS, Chief of Staff to General Grant, is, we are glad to hear, recovering from his recent illness.

GENERAL SICELES' DAUGHTER is growing to be an accomplished and very interesting young lady.

SENATOR PATTERSON did not leave for Ten-

nessee yesterday, as stated by a contemporary.

SENATOR SUMNER has gone North. POLITICAL.-The New York Commercial

says:-" It is whispered in private circles that one of the great leaders of the Democracy in this city, the idel for many years of the young Democracy of New York—a gentleman eminent in his profession and brilliant in social circles—will shortly declare against Seymour and Blair, and in favor of Grant and Colfax."
Who can it be, Brady? - Hon. A. J. Glossbrenner has not been re-

nominated by the Democrats in the fifteenth There is a strong opposition to him. - The Rhode Island soldiers and sailors have formed a Grant and Colfax club at Prov-

idence, with Gen. Burnside as chief. - The correspondent of the Tribune states that out of respect to the memory of Fhaddens Stevens, no services were held in some of the churches of Lancaster on Sunday evening. This is an unusual token of respect.

- Pendleton, in writing of the Presidential election, says the great battle-field is in the Northwest, and his services will be given in the States of Indiana, Illinois, and Ohio. These three States, in which Pendleton is about to try his generalship, cast one-third of the electoral vote (50) required for the choice of a President, (149.)

- Governor Swann seems to have considerable opposition in his scheme to get the nom. ination for Congress by the Democracy of the Third Maryland District. He seems, in fact, to receive cold comfort from both parties. The Gazette alleges that if the Democrats nominate and elect him to Congress, he will assuredly go over to the Republican party after the election of General Grant. The American answers that the Republican party will not have Swann upon any terms or under any pretense.

- The Philadelphia Inquirer says: "On Friday a primary election was held in the Lancaster (Pennsylvania) district for the nomination of a candidate for the Forty-first Congress. It had been previously recommended by the Republican Committee of the county that, notwithstanding the death of Hon. Thaddens Stevens, his name should stand at the head of the ticket, and that he should be nomihead of the ticket, and that he should be nomi-nated as if he was living. For the first time in the political history of the country a man al-ready passed beyond the confines of time was nominated for Congress without opposition." This may all be very fine in a sentimental point of view, but we cannot exactly see the point of it; and as the people of the Lancaster district are of the practical stripe, they will doubtless elect a living Representative. Five Republican candidates for the vacancy are already named, we see.

- Republican prospects are improving in California. It is said that there has been a "reaction" from the extraordinary popularity of Governor Haight, who has become the best "haighted" man in the State.

TELEGRAMS TO THE STAR. This Afternoon's Dispatches.

FROM EUROPE TO-DAY. The London Herald on Thad. Stevens-Switzerland will Reject the Federal Al-

London, Aug. 18.—The London Herald has a long article to-day on the life and past services of the late Hon. Thaddens Stevens.

The writer thinks that many wiser and abler Americans than Mr. Stevens have lately been lost to the cause of the country, but that the Republican party will long feel that they could have spared a better man. have spared a better man.

HERLIN, Aug. 18.—It is officially announced to-day that the Government of Switzerland will summarily reject any proposal of France looking to alliance with that power.

BREST, August 18.—The steamer St. Laurent, from New York on the 8th instant, arrived to-QUEENSTOWN, Aug. 18 .- Arrived, the steamer City of London, yesterday, from New York on

DESTRUCTIVE FIRE IN PHILADEL. PHILADELPHIA, August 18.—The extensive provision store of Collins & Rabb, No. 240 and 342 north Front street, were entirely destroyed by fire this merning. The total loss is from \$150,000 to \$200,000. Collins & Rabb were insured for \$60,000. This will cover their loss, sured for \$60,000. This will cover their loss, including 200,000 pounds of shoulders, and 700 packages of lard, hams and smoked beef. Bulliock & Bros. 500 sacks of fine wool stored in the building, loss \$60,000. Geo. E. Shewell had on storage sterine and lard upon which there was no insurance. There was also cotton belonging to Mesers. Cloghorn, which was insured. The building was of the most substantial character, and the walls remain without a brick displaced.

VIRGINIA'S RAILROAD DEBT-ORDER OF GEN. STONEMAN.

RICHMOND, Aug. 18.—Gen. Stoneman has issued an order directing the auditor of the State to receive from railroads indebted to the State the whole or part of their debt, to be paid in current funds, or in State bonds at par, the amount of State bonds received not to exceed two-thirds of the total payment by a road. The whole amount due by the roads is about hree hundred thousand dollars.

THE ROBBERY OF THE PROPLE'S BANK IN BALTIMOBE.—The Baltimore Galette of this morning says: The announcement yesterday morning of the robbery of the People's Bank, corner of Baltimore and Paca streets, drew to that institution a large number of the curious, and the aid of a policeman was necessary to prevent serious interruption of the business of the bank by the throng of visitors. Further investigation has disclosed the fact that the store of Messrs. Criss & Son, from which entrance was made to the bank, was entered by the barglars through a cellar window in the rear, an opening sufficiently large having been made by forcing one of the iron bars running across the window. The bank officers now state their loss to be \$5,000 in U. S. 1851 bor special deposit of U. S. 5-20's, of which \$3,400 belonged to the estate of Samuel Ward, of Baltimore county, and the numbers of them are known; David Carson, the President, \$1.500 U.S. bonds; Thomas J. Griffiss, a \$1,000 North-S. boads; Thomas J. Griffiss, a \$1,000 Northern Central Railway bond, registered, and \$155 in United States bonds, which had been bypothecated to the Cashier, J. H. Curley. This makes the loss, as reported, \$16,250. A box deposited by and belonging to Bavid Ridgely was also rifled, but as he is absent from the city, its contents are not known. A quantity of silver ware belonging to the Cashier, which was in the safe blown open, was undisturbed as far as is blown open, was undisturbed as far as is known. It has been ascertained that two explosions were heard on Sunday afternoon by persons living in the vicinity, one about four o'clock and the other near six o'clock, one explosion having been made to open the vault and the other to open a portable safe, within which the valuables were found. About ten o'clock on Sunday night a bag of burglars'
tools were found on the freight platform at
Camden Station, by two of the employees,
which are supposed to have been left there by
the burglars. No trace has yet been obtained
of the suits parties of the guilty parties.

DIENT WANT TO BE BURIED .- Rather & Indicross event occurred on Saturday last. It having been reported that a certain gentleman had died, and was to have been buried on Saturday evening, quite a number of his old friends and acquaintances repaired to his louse to pay the last sad tribute of respect by

following his remains to the grave

As the death had been sudden, the coroner had been summoned; and when his duties had been performed, the remains were placed on an extemporised hearse, and the procession formed.

Before moving, the hospitalities of the deceased's house was extended to those present in the shape of a good stiff brandy julep to each, so as the better to enable them to undergo the fatigue of the long march to the new bury-While the pall-bearers, who were standing

by the hearse, were slowly sipping their ju-leps, and now and again giving the goblets a slight shake to settle the ice in them, a noise was heard in the coffin, which turned some faces whiter than they had been for years before. Finally, the undertaker for the occasion mustered courage enough to unscrew the coffin lid, when horrible to be told, up sat the supposed corpse, and coolly asked for his julep. Having quenched his thirst he got down and stated to the gaping crowd that he had been in a sort of trance, and knew all that was going on around him, but was unable to rouse himself until him are were received. to rouse himself until his ears were greeted with the familiar jingle of the ice, and his nose with the delicions smell of the brandy and mint in the goblets round the hearse, the thoughts called forth, by which infused new life into his system, and the desire to partake became so strong that he was able to break the trance which had come near to consigning him to a premature grave.

His friends were too much aston shed at what they had witnessed, and too glad to see him among them again to investigate the phi-losophy of the thing, so they all adjourned to his house, where julips passed around long enough to almost accomplish for the whole party that fate from which the first one had so miraculously delivered their host.—Norfolk (Va.) Journal, 17th inst.

DIARREHAL COMPLAINTS ATTRIBUTED TO DISEASED MEAT.—Dr. Harris, President of the New York Board of Health, stated on Tuesday last that of thirteen head of cattle purchased at the New York cattle yards, apparently healthy.
every one of them were attacked with disease
before they could be driven to Westchester county and slaughtered; that large quantities of diseased meat had been sold in market, and of diseased meat had been sold in market, and, notwithstanding the extraordinary precautionary measures taken to preserve the health of the city of New York, the deaths last week from diarrhoral causes exceeded the number of deaths from sunstroke during the recent heated term; that these deaths were principally among middleaged persons, and that their sickness was mainly attributable to diseased meat, which, he averred, he could detect by feeling, even in the dark. The cattle-drovers are in the glums; beeves are a drug in the market at greatly reduced prices, and the New Yorkers becoming panic stricken, are discarding it from

ATTEMPTED POISONING.—A negro boy named Prince, employed by Dr. S. W. Van Duyne, of the Freedmen's Bureau at Hilton Head, North clusion that the moon did affect the weather, Carolina, and who had some time previous confessed to stealing \$60 from the Doctor, but had been retained in his service on the promise of good behavior, attempted, on the 6th inst., to or good behavior, attempted, on the 6th inst., to poison the family by introducing Paris green in the coffee at breakfast. Doctor Van Duyne and his wife were both made very ill by the poison, but it was detected in time to prevent any loss of life. Prince and a negro man named Lewis, who was concerned both in the theft and in the poisoning, have been arrested.

the Chicago Methodist Conference of which he was a member, stopped at Salt Lake City, and, at the request of the prophet, preached in the great temple, to an andience of 6,600 persons. He delivered to them a forcible orthodox Methodist sermon, to which the Saints listened with deep attention and great apparent satisfaction

PRESETTERIAN .- The Southern General Assembly minutes for 1866 report 10 synods, 48 presbyteries, 786 ministers, 51 heentiates, 92 candidates, 1,298 churches; added on examination, 2,857; on certificates, 1,411; total church members, 76,649.

MA movement in favor of conterring the right of suffrage on young men between eighteen and twenty-one has been started in Boston. It is proposed to hold a meeting in Fancuil Hall at an early day. Newport, Ky. and others are doing likewise.

FUNERAL OF HON. THADDEUS STE. In Lancaster, yesterday morning, the comm containing the remains of Mr. Stevens was again opened, and the crowd again commenced

again opened, and the crowd again commenced pouring through the rooms of his residence. The coffin was decorated with wreaths, and a cross of evergreen and white litter. The face was becoming somewhat colored, but the expression was the same as ever, and all who had known him agreed that the appearance was more natural than they had expected to see. The first train brought from Harrisburg Gov. Geary, Senator Cameron, Gen. Hientzleman, several officers of the departments, and a number of citizens; and from York another large delegation. The train westward next arnumber of citizens; and from fork another large delegation. The train westward next arrived, the regular one bringing largely organized delegations from various points along the road. The special train from Philadelphia brought the Mayor and Councils of that city, delegations from the Invincibles and the Union League, the latter carrying a banner drooping in mountains and also a representation from in mourning, and also a representation from the colored citizens of Philadelphia including a committee from the Bonneker Literary Institute. The city was by this time literally filled by the vast crowd, and the various organizations began to muster for the procession, and threed out in large numbers.

At two o'clock the services at the house wer At two o'clock the services at the house were commenced with an invocation by Rev. H. H. Kreamer, of the First German Reformed Church. The Rev. Bishop Bigler, of the Moravian Church, then read the 90th Psalm. Then followed a prayer by the Rev. E. H. Nevins.

The coffin was then closed, and conveyed to the hearse by the pall-bearers, and the line of procession began to move, as follows: Captain of Police, City Police, Chief Marshal and aids, Fire Department, the "Shiffler" having the left, being the company of which the deceased was in former years a member and officer: City in former years a member and officer: City Cornet Band, Mayor, Councils. and School Board of Lancaster, United States officers of the Ninth Bistrict, Medical Faculty, members of the press, trustees, faculty and students of Franklin and Marshal College and State Nor-mal School, Monterey Lodge of Odd Fellows, mai School, Monterey Lodge of Odd Fellows, junior order of American mechanics, Westchester delegation, deputation of colored citizens of Philadelphia and other places, including a representation from the Board of Aldermen of Washington city; the Republican Invincibles, Union League of Philadelphia, with draped banner; Mayor and Councils of Philadelphia, bar of Lancaster, Governor Geary and State officers, committee of arrangements, clergy, nall-beapers, hearse attended by committee gy, pall-beauers, hearse attended by committee of escort from Washington; relatives of de-

ceased in carriages.

At the cemetery the various organizations divided to the right and left. The clergy and hearse, with attendants, passed through, and the procession closed up in the rear. Not one-tenth of the vast assemblage could find standing room within the grounds, and the streets on all sides were blocked up during the entire progress of the ceremonies. The burial service of the Lutheran Church was read by Rev. W. V. Gotwald: after which Dr. Mombert delivered an address. The concluding remarks were made by the Rev. E. H. Gray. The anthem, "Rest in Peace," was sung by the choir, and the services concluded with a benediction announced by the Rev. C. F. Forney.

THE CATTLE PLAGUE.—In view of the con ned apprehension of the cattle disease. Gov Fenton, of New York, has called together the board of commissioners for protection of .cattle, &c., from destruction by infectious disases. As the law gives ample power to this commission, it is probable measures will be adopted in addition to steps heretofore taken by the Governor and board of health in New York, and in several other localities, to pre-vent the introduction, as far as possible, of inlected cattle and the further spread of the dis-

Governor Ward, of New Jersey, does no prohibit the transportation of animals through the State, but has appointed inspectors, under the ad vice of the State Agricultural Society, to examine all cattle arriving from the West, and to slaughter the sick and quarantine all that have been exposed to infection. The same precautions have been taken by Govornor Fenton, and cattle will be inspected at Dunkirk, James. town, Buffalo, Elmira, and Albany. This is not more necessary for the protection of the public health than for the protection of the neat cattle of the State from infection. These numbered two millions, according to the census of 1865, and constitute a part of the wealth of the State that deserves the greatest care which sanitary measures can bestow.

which sanitary measures can bestow.

The New York Post says: The experiments already made, where sick cattle have been quarantined by the officers of the Board of Health, suggest the possibility of getting the disease under the most complete control. Five animals which were selected for observation because they were believed to be in a dying condition, were placed in a yard that had been assurated with crude carbolic acid. Instead of saturated with crude carbolic acid. Instead of dying, as was expected, they rapidly grew bet-ter, and at latest accounts were so far recoverfullest inquiries into the pathology of the disease has been made. The blood, secretions tissues and viscers of cattle dead of the disease will be thoroughly examined by competent pathologists and microscopists, and the results of these analyses will form the subject of a special report.

A FEARPUL INCIDENT.—A letter from Fort Larned to the Leavenworth Times tells the following: A most fearful and appalling circumstance transpired at the fort last evening. While a party of ladies and gentlemen were sitting in front of the beautiful quarters of Col. Ed. Wynkoop, Indian superintendent or agent of several warlike tribes, the entire party commenced a beautiful song. While the melody was ringing in the night air, a monstrons, shaggy and rabid wolf dashed madly in the midst of the party, first attacking Lieut. Thompson, Third Enited States Infantry, tearing and lacerating his limbs in a mos frightful manner. The monster broke away pursued by Col. Wynkoop, and his chief scout. James Morrison, who had lost no time in procuring proper arms. Before either of these fearless gentlemen, however, could overtake him, the wolf had attacked the sentry at the guard-house, whom he also bit savagely, the sentinel having fired, but, most unfortunately, missed his aim. From the guard-house the wolf next dashed over to the hospital, and made an assault upon one of the men there stationed, almost tearing his right arm from his body, after first taking of a finger entire. He then stracked and mutilated a colored soldier of the Tenth Cavalry, and sebsequently entered the quarters of the laundress, while she was in bed, but, owing to the thickness of the bed-clothes, fortunately failed to inflict any serious injury on the poor woman. The maddened creature next caught sight of the sentinel at the hay-stacks, who, almost providentially, shot him dead. Besides Lieut. Thompson, there are three persons badly bitten and mutilated by

THE BEST GRASS FOR BUTTER.-If you aim at a great flow of milk, feed on young timothy and white clover; if you aim at the best results, both in quantity and quality of butter, feed on fresh pastures of white clover and timothy in Summer, and early cut timothy and wheat bran in Winter. The grass must be cut when heading out; or better, young aftermath well cured. Avoid roots and garden stuff in general, if you wish a good quality of butter—though it is now held that those fed while milking, or immediately before, will remedy the evil .-Valley Farmer.

THE MOON AND THE WEATHER .- Professor Elias Loomis read a paper upon the "Influence of the Moon upon the Weather," before the American Association for the advancement of Science, at Chicago, and at its close exhibited a table of results which he had deducted from sor Herschel, that the moon just before its full influenced the weather toward cloudiness rather than clearness, and followed the same law as the sun.

BAPTIST.—The African Baptist Church Richmond, Va., is said to have a larger membership than any Baptist Church in the world, except M. Spurgeon's, in London. A gentleman writes that he recently attended there, siting by the side of Chief Justice Chase and ex-Governor Wise, when two hundred and fourteen persons were baptized. Their evening prayer meetings are attended by over fifteen hundred people, and crowds go away for want of room.

Married woman, says a statistician, on an Married woman, says a statistician, on an average live until forty-five, while unmarried women do not live to be more than forty-three years or age. An exchange therefor charges that every man who refuses to marry shortens some woman's life just two years, and thus practically commits hamacide, and follows up the allegation by calling on the grand juries to find hills against backelors over thirty years

Dr. Clement A. Walker, of the Boston Lunatic Hospital, in speaking of the number of deaths in that institution from paralysis, re-marks that "thus fearful form of brain disease appears to be rapidly increasing in the com-munity, and may well claim the earnest atten-tion of the medical protession and of thinking - LOS & STATOL & WHICHA

THE NEW SCHOOL BILL IN LOUISIANA .- AT ict to regulate public education in the State of Louisiana, prepared under the supervision of Parson Conway, has been made the special order for next Friday. Section one provides that the schools shall be open to all children between the ages of six and twenty-ene, without distinction of race, color, or previous condition. The bill provides for a board of education, to consist of the Lieutenant Governor, six persons to be appointed by the Governor and confirmed by the Senate, and the State Superintendent, to be elected by the people. The State Superintendent is to have the appointment of the directors of the six general school districts into which the State is to be divided. and is empowered to decide without appeal all controversies or disputes which may arise under the new law; and he is also invested with other extraordinary powers. The loyalty to the National Government, and kindness to all men, regardless of race or color. Section five of chapter six provides for the compulsory attendance at school or places of cor-rection of all children between the ages of eight and fourteen who are without fixed employ-ment, such places of correction and schools to be provided by the board of education at the expense of the parents or guardians, or, in case of their poverty, at the expense of the school fund, in the discretion of the beard. The bill also provides that in addition to the poll-ax now provided for, a special tax of one-fourth of one per cent, shall be levied on all taxable property in the State. Section two of the con-luding chapter gives the State superintendent the right to interpret all doubtful provisions of the bill, which covers eighty-two pages. The present State superintendent is the Rev. T. W.

Conway, the framer of the bill. The company's agents have taken up one hun-dred thousand acres of land.

THE SORA SEASON .- The Richmond News says: "The sora season is now approaching, and already these birds have made their appearances in limited quantities in our river marshes. Sportsmen are beginning to brush up their paraphernalia and clean their trusty weapons in anticipation of the good time coming." We have not heard of the appearance of Sore set in this neighborhood.

LARGE SALE OF LAND.—Mr. Calvin McCor-kle, agent at Wythesville, Va., for the Pied-mont Land Agency, has sold to Mr. J. Law-rence, of Philadelphia, a farm owned by Mr. John P. M. Simmerman, of Wythe county, containing 1,195 acres, for the snug sum of

of waring flesh colored gaiters suggests at first sight that the wearer is barefoot, which adds to the charm and hallucination of things, notwithstanding the thought is so shocking. Three negroes—Augustus Haker, James
Thorias and George Johnson—sentenced to be
hanged in Hallian C. H., N. C., Aug. 16th, for
murder, have been granted an appeal to the
Supreme Court on some technicality of the law

TROUBLE IN THE FEBJEE ISLANDS -An Ausralian joint stock company had made arrangenents with the King of the Feejee Islands, involving the settlement of the claims of the American Government, and the probable es-tablishment of a British protectorate over the Feejee group. The terms of the charter occa-sioned considerable excitement among the white settlers. The British consul entered protest, pointing out that the King had granted powers to the new company, such as the impo-sition of taxes, &c.. which he could not legally of the commodere of the Australian squadron.

The German boy, Max Klinger, who murdered his uncle and tried to kill his aunt, in St. Louis, was sentenced to be hanged Oct. 6.

ALEXANDRIA AND VICINITY.—The Journal of this morning has the following items:

Hatchet, Pistel, and Sabre.—John Wilson, a white Washington hack-driver, who occasionally vegetates in this latitude, was arraigned before Squire Moore yesterday, and sent to jail for cutting Scipio Johnson, colored, with a hatchet, about Hoclock, Sunday, in a house on Fairfax street, between Queen and Princess. Both parties had used carnal weapons in the muss that culminated as disastrously for Johnson—the Squire having been placed in possession of a heavy sabre. Colt's cavalry pistol, and a good-sized hatchet as weapons used by them. Johnson being unable to appear, Wilson gave his version of the affair. He said Johnson attacked him with the pistol He said Johnson attacked him with the pistol and rammed the barrel in his mouth and tried to fire it off. Wilson then drew the sabre on him. Johnson then clubbed the pistol and struck Wilson a blow that broke off the stock of the pistol. Wilson that broke off the stock of the pistol. Wilson then "went for" Johnson with the hatchet, opening an ugly hole in his skull, and also a deep gash near the right shoulder-blade. "The green-eyed monster" had a good deal to do with originating the muss. Wilson and Johnson are, and have long been partners in the affections of an old market remarks the stock of th mulatto woman, known here as "Gun-boat Mary." Wilson is the Washington partner, and Johnson the Alexandria partner. Work being dull in the D. C. on Sunday, Wilson came down to see "Gun-boat Mary." He found the resident partner on hand at her house. The two men soon quarrelled with the

result above detailed.

Iriangular Scrimmage.—On Saturday night, three strangers from Washington, named John Kelley, Rosetta Stewart, and Ellen Hoye, obtruded themselves into the peaceful residence of Miss Mattie True, near Maryland Ferry Slip, and after enjoying the hospitality dispensed therein, proceeded to raise amongst themselves a domestic broil. Squire Moore sat in judgment on the parties, and after a patient and laborious investigation, fined John Kelly for disorderly conduct, made the fair Rosetta pay costs for a similar offence, and sent Ellen Hoye to the workhouse for three months, as a vagrant.

In Search of Pleasure.—The "second nine" of

months, as a vagrant.

In Search of Pleasure.—The "second nine" of the colored Calathumpian Base Ball Club, of Washington, landed from the terryboat about half-past 1 o'clock yesterday, and armed with the instruments used in the "noble game," and preceded by a drum corps of three, marched np King street, "in full glory reflected," in search of pleasure, which they found in the open space between the canal basin, the river and cotton factory. On this historical spot they encountered the second nine of the "Rising Sun Club," whom they demolished after a spirited contest of two hours and sixteen minutes. Score 26 to 102 minutes. Score 26 to 102.

The Distilleries.—Up to this time, since the passage of the last law regulating the distillation of whisky from grain, the distilleries here and at other places in Virginia, have shown very little disposition to commence operations under the new law. This may arise from the fact that the parties to be effected are unacquainted with the law. Except as to its most ominent features and provisions, very little is known concerning it.
Ordination.—Messrs. R. Woodson, J. Thomas,

L. W. Brooks, and George Adams, members of "The Benlah" Normal and Theological School of this city, were ordained to the work of the council of ministers of Washington and Alex-These men will soon take their departure for the towns and cities further South, to be teachers and preachers to the illiterate of Destructive Hail Storm .- At the same time the rain storm raged in A exandria on Sunday, a destructive bail storm visited Prince Georges county, Md., just across the river. The growing corn in many fields was utterly destroyed. The hail is said to have been of an extraordinary size, some of it as large as a walnut.

Cattle Run Grer.—On Saturday evening about

5% o'clock, when the passenger train of the O. A. & M. G. R. R. was on its way to this city, the engine in coming through a deep cut, a mile the other side of Union Mills, run into a lot of cattle and horses. The heads of two of each were severed from their bodies. Inquest .- An inquest was held Sunday on the body of a mulatto child, found in Hammerdinger's alley. Its death was satisfactorily explained by its mother, Jane Stewart.

Robbery — A number of the hands on schooner John T. Williams, lying in the stream, were robbed Sunday, of money and clothing, by a comrade, who escaped ashore, and has since

eluded arrest. The Gazette of last evening has the following Political.-B. H. Shackelford, Esq., the Con servative candidate for Congress from the Seventh District, has issued a long, but able and interesting address to the people of this district.

Removal .- It is stated that the office of the

Virginia State Journal, new located in this city, will be removed to Richmond sometime during next month. Steppage of Local Trains.—The local trains on the Washington, Alexandria, and Georgetown railroad, heretofore run on Sundays, have been suspended for the present. Baptizing.—Several colored persons were baptized yesterday afternoon, at the usual place near Battery Rodgers. A large concourse of colored persons attended. Pardon Refused -Governor Wells last week refused to pardon Thomas Williams, con-

THE GREAT REMEDY FOR HOME

TAKEN INTERNALLY—Half a teaspoonful distent in water, in a pleasant driph—stimulation

APPLIED EXTERNALLY-When there is pain

STOPS PAIN quicker than morphise, chier

IF SUDDENLY SEIZED with pain, one tea spoonful in a glass of water, will, in a few minutes

PERSONS SUBJECT to appeplery, heart dis-case, headaches, sudden faintings, should keep the Belief near them; a teaspoonful in water, will, in three minutes, remove all difficulty.

RADWAY'S READY RELIEF

IN ITS SIMPLICITY AND GRANDEUR

R. R. R.

We will first consider in its capacity as a speciality our far famed remedy, Radway's Beady Relief, symbolized throughout the civilized world under the significant alliteration R. R. B. This remedy is happily possessed of properties that give immediate and positive proof of its excellence, that the most skeptical can feel its power in a few seconds, especially where the sufferer is the victim of excruciating pain. It is not a question with this remedy of time it takes to remove the perception or sensation of pain, or of the cost; for the moment it is applied to the part of the bedy where pain exists the patient is relieved. And if the pain is from an established disease, a cure will soon follow.

pain is from an established disease, a cure will soon follow.

The Beady Belief is a vegetable remedy. It is eure, safe, and innocent. It is quicker in subduling pain and making the patient comfortable than Morphine, Chloroform. Ether, Oppium, or any other agent. Its simplicity of application renders it a valuable bousehold necessity, and its usefulness covers the entire range of family accidents that are liable to occur at any moment. The Beady Belief should be kept in every house, for if any injury or accident occurs to child or grown person, its use will prove of immediate service. It matters not what the difficulty may be. Burn, Scald, Fall, Bruise, Out, Wound, Poison, Sprain, Strains, Pain, Ache, Cough, Cold, Croup, and a hundred other annoyances that are constantly taking place in every family, this BEADY BELIEF will, in a few minutes, prove its value. If suddenly seized few minutes, prove its value. It suddenly seized with sickness, and you have no faith in medicines but wish for a doctor the Beady Relief will suspend or check the progress of the disease at once, and in ninety times out of one hundred cure the patient before the doctor arrives. It can never do harm, but will always do good.

AND OURE OF PESTILENTIAL AND CONTAGIOUS DISEASES. It is in diseases where immediate and absolute assistance and relief is required wherein this remedy proves its superior, and we might say, supernatural power in saving life, and promoting health

In cases where Epidemic Diseases, Pestilence, Small Pox, Fevers, &c., exist, this remedy proves the potent power of a disinfectant, neutralizer and cure. No one that uses the Ready Belief when Asistic Cholera, Yellow Fever, Typhoid Fever, Small Pox, Diptheria, &c., prevail in a community, will be seized with these diseases; and if seized when using it, will be cured if the directions are followed. Simple as this remedy is, it possesses the elements of cure of the most violent, painful, and istal diseases that scourge the earth.

THE PROPERTIES OF THE BRADY RE LIEF ARE COUNTER-IRRITANT, RUBEPA CIENT, ANTI-SPASMODIC, DISINFECTANT ABTISEPTIC, DIFFUSIVE STIMULANT TORIC, NERVINE, ANODYNE, ART-ACID.

Its use in Asiatic Cholera, either as preventive or cure, is of more value to the world than all other discoveries in vogue.

It instantly secures rest, stops the Cramps and Spaems, and holds the constituents of the blood together, equalizing the circulation, and preventing the separation of the watery constituents from the other properties of the blood, and arrests vomiting and purging. In Yellow Fever it is likewise all potent, and with the assistance of Badway's Pills will protect those exposed from attacks, and cure them that may be seized. In Fever and Ague, Typhoid, Billions. Scarle and other Fevers, its use will always insure In Bheumatism, Neuralgia, Gout, Tic Doleren Sore Throat, Diptheria. Influenza, in all cases inflammation, the Beady Relief, assisted when required with the Besolvent and Pills, will sure effect a cure.

NEW IMPROVEMENT IN READY

We have at last succeeded in getting a Cork that will prevent the evaporation of the Belief.

The substitution of the India Bubber Stopper will prevent the evaporation of the volatile properties of the Belief. It is important that the Belief be kept corked, to prevent the action of the atmospheric air.

NEW CORKS, LARGE BOTTLES.

The bottles are much enlarged, so that person receive as much Ready Relief for 19 cents as they will get for \$1 of the Pain Killers and other 25 cent Liniments. &c. R. B. Belief 50 cents per bottle. See that every bottle is stamped with Dr. Badway's Preprietary Internal Revenue Stamp. Ask for Relief in new bottles—new style.

H. B.—Persons in ague districts should take a teaspoonful of Relief, in water, on rising in the morning. This will protect you against Fever and Ague and all other Fevers. my 27-colm JOHN GRAY & CO..
